

## NOTES AND QUERIES

### Corrections to the Ten-Year Index (12:1)

A careful reader of the **Forum** has noted that Lynwood Montell's "Letter to Rogers Morton" was omitted from the Index. Unfortunately the editors have not been able to locate it. Could the astute reader please let us know where this note is to be found?

Something that may have puzzled readers of the Index is the oddly brief Material Culture category. This peculiarity is due to a printing error; page 78 should have appeared on page 73.
